

MATRIX COSEC

Right People in Right Place at Right Time

COMPREHENSIVE ACCESS CONTROL, TIME-ATTENDANCE AND PEOPLE MOBILITY SOLUTIONS

Productivity of any organization depends on its effectiveness in putting the right people in the right place at the right time. Besides, an organization also has to safeguard its physical assets. These two seemingly contradictory requirements lead to challenges in finding optimum balance between productivity and security. They are inherently human-oriented, complex and challenging to automate.

Security depends on having the right answers to Who, What, Where and When. Defining, controlling and monitoring entries and exits at each site, zone, floor, area and location is necessary for effective security.

No two organizations have identical attendance and leave policies. Same organization may follow different timings and holidays for its different facilities like corporate office, factory and branch offices. Further, people working at different levels in

the same department need different time-attendance and access control flexibility. It is a herculean task to identify access control and time-attendance solution that meets the organization's exact needs, integrates seamlessly with its existing IT/ERP infrastructure and track people's movement effectively.

Presenting Matrix COSEC – an adaptive, modular, scalable and function-rich access control, time-attendance and people mobility management solution designed for modern organizations.

People Mobility Management

Time-Attendance • Access Control • Roster
Visitor Management • Contract Workers Management

10 REASONS TO INVEST IN MATRIX COSEC

MULTIPLE CREDENTIALS

- Palm Vein and Fingerprint
- RF Cards-Proximity, Smart Cards and NFC Tags
